Why DOSPRN?

Nowadays, many laser and inkjet printers have powerful features but cannot print simple text accurately. Besides, some inexpensive printers (the so-called win-printers) can not print in text mode (**dos print** or **dosprinter** mode) at all.

DOSPRN helps to extend the life of old DOS programs. This program allows you to print reports from a good old DOS program into **new printers** irrespective of their types (Yes, USB and network printers, print-servers, and PDF-printers too!)
