Simple concept and gameplay, but not the easiest thing in the world I would definitely recommend this game.. I would definitely recommend this game If you'd like to see a bit of gameplay, check out this video: <https://www.youtube.com/watch?v=CJpk0AOJKnM> Big time waster and takes you're 5 dollars I can see how this game could be rage inducing.. What seems like an easy relaxed journey in the beginning, is destined to become fraught with danger as you progress through the Parallel paths of ever changing light.

Biggest complaint: the checkpoints aren't closer together Soundtrack was tight.. Journey through the utterly surreal, simplistic and colourful world that is Parallels.. the finish line is in sight- commence premature celebration initiative "jump for joy"- overjump and my ball explodes against the side of a wall half an inch from the finish line- tearfully click "restart" and spend another thirty minutes on level 2As a former addict of the many online arcade games on netives, I both love and hate this game. ly/2z5J2IyAbout This GameParallels is a minimal, side scrolling platform where you control a lost sphere through a minimal world of Parallel platforms..) I can see how this game could be rage inducing However, it is quite fun and has a very enjoyable soundtrack. [Ntfs 3 For Mac Os X](#)

If you'd like to see a bit of gameplay, check out this video: <https://www.youtube.com/watch?v=CJpk0AOJKnM>. But I cannot progress past this one point (And, frankly, I've grown a little weary of the repetitiveness granted by my lack of progression.. Avoid collapsing walls and ceilings, platforms on the move and shadowed shapes that will follow you to your destruction.. There is only one map, where you have one life, and if crashed have to start from the beginning.. Its not fun at all -get through level 1 in a heartbeat- wow, that was super easy- can't beat level 2- try for an HOUR and still can't get closer than the 400 marker- finally I make it through.. However, it is quite fun and has a very enjoyable soundtrack Simple concept and gameplay, but not the easiest thing in the world.. [youtube.com/watch?v=CJpk0AOJKnM](https://www.youtube.com/watch?v=CJpk0AOJKnM) Worst game of this type ever Its like some \u2665\u2665\u2665\u2665\u2665\u2665 rage game.. Don't be deceived, Parallels is a relatively chilled out puzzle escape platforming experience, but let your guard down and it becomes brutally hard to find the way out!Features:- Tons of puzzle levels- Checkpoints to save your process- Easy on the eyes- Ambient Soundtrack 1075eedd30Title: ParallelsGenre: Action, Adventure, Casual, IndieDeveloper:RisingHighPublisher:RisingHighRelease Date: 13 Nov, 2015English Awesome game is awesome!
